Chair's letter to shareholders

Dear Shareholder

On behalf of the Board of Directors, I invite you to attend the 2026 Annual General Meeting (AGM or Meeting) of Virgin Australia Holdings Limited (Virgin Australia or Company) to be held on Friday, 20 November 2026, commencing at 10.00am (AEST) / 11.00am (AEDT).

It is the Company's intention to provide all shareholders with as much opportunity to participate in Virgin Australia's AGMs as is reasonably possible. To facilitate this, our 2026 AGM will again follow a hybrid meeting format, allowing shareholders to either attend and participate in person at the Plaza Level, Meeting Rooms P6 & P7, Brisbane Convention and Exhibition Centre, Grey St, South Brisbane Queensland, or online at <https://meetnow.global/M9M4TGT>.

The 2026 financial year demonstrated the strength and resilience Virgin Australia has built as a relisted company, despite a more challenging second half marked by ongoing inflationary pressures across aviation and heightened volatility in fuel markets and the broader operating environment due to conflict in the Middle East.

The AGM is an important event for Virgin Australia and provides shareholders with an opportunity to receive an update on Virgin Australia's performance during the year, ask questions of the Board and Management, as well as Virgin Australia's Independent External Auditor, and vote on the items of business included in the Notice of AGM.

The Notice of AGM sets out the items of business of the AGM. For further details on each of the items of business, please refer to the accompanying Explanatory Memorandum. I encourage shareholders to read this material carefully before voting on the proposed items of business.

If you are not able to attend the AGM, either in person or online, I encourage you to vote directly or appoint a proxy to vote on your behalf. You may vote directly or appoint a proxy by:

- using the Computershare website at www.investorvote.com.au; or
- completing the enclosed voting form.

Voting forms and online voting /proxies must be received no later than 10.00am (AEST) / 11.00am (AEDT) on Wednesday, 18 November 2026, to be valid. Even if you plan to participate online, I encourage shareholders to cast votes and lodge questions ahead of the meeting at www.investorvote.com.au.

Shareholders can find instructions for how to join the meeting online, view the webcast, submit questions and vote in real time during the meeting, at www.computershare.com.au/virtualmeetingguide. Lodging questions and casting your vote ahead of the meeting will not prevent you from attending online.

Along with the entire Board, I look forward to engaging with shareholders at the AGM and we thank you for your continued support.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Peter Warne".

Item 4: Re-election of Warwick Negus as a Director

Warwick Negus AM, Non-Executive Director (Virgin Group nominee)

Committee Memberships: Member of the Remuneration, Nomination, People and Culture Committee

Warwick has extensive board experience, having served as a director of ASX-listed Washington H. Soul Pattinson & Co. Ltd and Century Investments Ltd and as Chair of Bank of Queensland Limited, Pengana Capital and URB Investments Ltd.

Recommendation - The Directors of the Company (with Warwick abstaining) unanimously recommend that shareholders vote **in favour** of Warwick's re-election as a Director. The Chair of the meeting intends to vote all available proxies **in favour** of the resolution.

Item 5: Adoption of the Remuneration Report

The Remuneration Report for the Company for the financial year ended 30 June 2026 begins on page 46 of the 2026 Annual Report (which is available online at www.virginaustralia.com/au/en/about-us/investor-relations/reports).

The Remuneration Report provides information on:

- the policies adopted by the Board for determining the nature of the remuneration details of Directors and other members of KMP;
- the relationship between the remuneration policies and the Company's performance; and
- the performance conditions that apply to the different components of the remuneration structure, why those performance conditions were chosen and how performance is measured against them.

The 2026 financial year was Virgin Australia's first full year as a publicly listed company and the first year under the new executive remuneration framework introduced following the Company's ASX listing in June 2025. The year reflected strong financial and operational performance, continued progress on the Company's transformation journey and embedding of Virgin Australia's operating model as a listed company. The Board considers the executive remuneration framework is designed to support the goal of attracting, motivating and retaining the right talent to deliver the Company's strategy and aligns executive reward with sustainable performance, long term shareholder value and Virgin Australia's continued transition from a private to listed company remuneration structure.

Shareholders will be asked to vote on a resolution to adopt the Remuneration Report at the Meeting. In accordance with section 250R(3) of the Corporations Act, the vote on this resolution will be advisory only and will not bind the Directors or the Company. However, if:

- 25% or more of the votes cast on the resolution are against adoption of the Remuneration Report (i.e. "first strike"); and
- at next year's annual general meeting, at least 25% of the votes cast on the resolution for adoption of the remuneration report for the financial year ending 30 June 2027 are against that report's adoption (i.e. "second strike"),

then the Company would be required to put to shareholders at that 2027 annual general meeting a “spill” resolution. This spill resolution would propose that an extraordinary general meeting (EGM) be held within 90 days of the 2027 annual general meeting to consider the election of all Directors, excluding the Managing Director.

If the spill resolution were to be passed, all of the Directors (other than the Managing Director) who held office at the time of the adoption of the Remuneration Report, for the year ending 30 June 2027 and who remain in office at the time of the EGM, would cease to hold office at the EGM, unless re-elected at that meeting.

Recommendation – The Directors unanimously recommend that shareholders vote **in favour** of adopting the Remuneration Report. The Chair of the meeting intends to vote all available proxies **in favour** of the resolution.

Item 6: Grant of FY27 Long Term Incentive Rights to the Chief Executive Officer

ASX Listing Rule 10.14 requires shareholder approval for a Director to acquire equity securities under an employee incentive scheme. Accordingly, shareholder approval is sought for the grant of performance rights to David (Dave) Emerson, Chief Executive Officer and Managing Director, under the Company’s Long Term Incentive Plan (LTIP) as part of his FY27 Long Term Incentive (FY27 LTI Rights).

The Board (excluding Dave) considers that:

- the proposed issue of FY27 LTI Rights to Dave is reasonable in the circumstances as an appropriate incentive appropriate to the role as Chief Executive Officer and Managing Director of the Company; and
- the exception in section 211 of the Corporations Act applies.

Accordingly, the Board (excluding Dave) considers that shareholder approval under section 208 of the Corporations Act is not required for the issue of performance rights to Dave. If approval is obtained:

- the FY27 LTI Rights will be granted to Dave on the terms summarised below.
- the Company will be entitled to rely on Exception 8 of ASX Listing Rule 10.12, which exempts the Company from needing to obtain shareholder approval under ASX Listing Rule 10.11 (approval required for certain issues of securities) to issue the FY27 LTI Rights grant to Dave; and
- the Company will be entitled to rely on Exception 14 of ASX Listing Rule 7.2 which exempts the issue of FY27 LTI Rights from counting towards, and thereby reducing, the Company’s capacity to issue up to 15% of the total number of equity securities which the Company has on issue in a rolling 12 month period, without shareholder approval under ASX Listing Rule 7.1 (issues exceeding 15% of capital).

If approval is not obtained, the FY27 LTI Rights will not be granted and the Board will consider an alternative means of delivering Dave’s FY27 LTI opportunity.

FY27 LTI opportunity and number of Rights

Dave’s FY27 LTI opportunity has a face value equal to 67% of his FY27 total fixed remuneration (TFR), being \$872,721 based on FY27 TFR of \$1,302,568.

The number of FY27 LTI Rights to be granted is 307,610 Performance Rights.

This number has been calculated by dividing the face value of the FY27 LTI opportunity by the 10-day volume weighted average price (VWAP) of Virgin Australia shares following release of the FY26 financial results, being \$2.8371, and rounding down to the nearest whole performance right.

Each Performance Right can be exercised into one ordinary Virgin Australia share. No amount is payable by Dave for the grant of the FY27 LTI Rights. The FY27 LTI Rights are expected to be granted as soon as practicable following the 2026 AGM and in any event, no later than three years after the Meeting.

For FY27, Dave’s total remuneration package comprises:

- TFR of \$1,302,568;
- an LTI opportunity of \$872,721, representing 67% of TFR; and
- an STI opportunity of \$2,175,289 at target (167% of TFR) and \$3,154,168 at stretch or above (242.15% of TFR).

Further details of Dave's remuneration are set out in the Remuneration Report for the Company for the financial year ended 30 June 2026 (page 66 of the 2026 Annual Report which is available online at www.virginaustralia.com/au/en/about-us/investor-relations/reports).

Performance conditions and vesting

The FY27 LTI Rights will be tested over the three-year period from 1 July 2026 to 30 June 2029 and are subject to two equally weighted performance conditions:

- Adjusted Return on Invested Capital (ROIC) – 50%; and
- Adjusted Earnings Per Share Compound Annual Growth Rate (EPS CAGR) – 50%.

ROIC measures the Group's ability to generate sustainable returns from invested capital, while EPS CAGR measures sustained earnings growth and shareholder value creation. Both measures use a Board-approved adjusted earnings base, with adjustments applied consistently.

For each measure, no FY27 LTI Rights vest below threshold, 50% of the Rights allocated to that measure vest at threshold, vesting increases on a straight-line basis between threshold and target and 100% vest at or above target.

The targets have been set having regard to the Board-approved long-term plan, Virgin Australia's strategy and relevant external benchmarks. The ROIC range requires returns above the Group's weighted average cost of capital, while the EPS CAGR range has been calibrated having regard to the long-term plan and relevant market benchmarks. The Board considers the targets appropriately rigorous and requiring meaningful improvement in business performance for higher levels of vesting.

The Board considers that prospective disclosure of the numerical ROIC and EPS CAGR hurdles would reveal commercially sensitive long-term financial assumptions. Accordingly, the numerical targets will not be disclosed during the performance period. The applicable targets, actual performance and resulting vesting outcomes will be disclosed retrospectively in the FY29 Remuneration Report once the performance period has ended and the results can be measured.

Subject to satisfaction of the performance conditions, vesting date will be no earlier than 1 September 2029. Any shares acquired on vesting will be subject to a further two-year disposal restriction. The Performance Rights do not carry dividend or dividend equivalent entitlements.

Vesting is also subject to continued employment. Subject to the Board's discretion and the LTIP rules, treatment on cessation will depend on whether Dave is a Good Leaver, retires or is a Bad Leaver. All leavers will be permitted to keep Shares issued under the Virgin Australia Employee Incentive Scheme as well as any shares issued on exercise of their previously vested awards. If Dave is a Good Leaver, he will retain any vested Rights and a portion of his unvested Performance Rights, pro-rated for both time and performance, with the balance lapsing. If Dave is a Bad Leaver, his vested (and unexercised) and unvested Awards will be forfeited.

The LTIP also contains malus and clawback provisions under which the Board may reduce, cancel, forfeit or recover awards or resulting benefits in circumstances including fraud, dishonesty, material breach of obligations or significant under-performance adversely affecting the Group.

Performance Rights are used to align Dave's remuneration with long-term shareholder interests by linking the value ultimately received to the Company's long-term performance and share value. The Company proposes to issue performance rights instead of ordinary securities for these reasons.

No loan will be made in connection with the grant of the FY27 LTI Rights or the acquisition of shares on vesting.

The summary of material terms of the Employee Incentive Scheme is set out in Schedule 1.

Details of securities issued under this approval will be disclosed in the Company's annual report for the period in which they are issued, together with a statement that shareholder approval was obtained under ASX Listing Rule 10.14. Any additional person covered by ASX Listing Rule 10.14 who becomes entitled to participate in the LTIP after this approval and who is not named in this Notice will not participate until the necessary shareholder approval is obtained.

Previous grants

Dave was previously granted 300,360 performance rights under the FY26 LTIP for no consideration. The number of performance rights granted was calculated by dividing the dollar value of his grant (being Dave's then TFR of \$1,300,000 x 67% = \$871,044) by the Company's initial public offering offer price (\$2.90). Dave did not pay any consideration to acquire his FY26 LTIP performance rights. Details of this issue are set out in section 6.3.4.5 of the Company's replacement prospectus dated 13 June 2025. Dave was also granted 688,732 share rights (FY26 Share Rights) under the Plan as the deferred equity component of his FY26 short term incentive. The number of FY26 Share Rights granted was calculated by dividing the deferred portion of Dave's FY26 short term incentive outcome, being \$1,954,002 (75% of his total FY26 short term incentive outcome of \$2,605,336), by the 10-day volume weighted average price of Virgin Australia shares following the announcement of the Company's FY26 financial results, being \$2.8371, and rounding down to the nearest whole share right. Dave did not pay any consideration for the FY26 Share Rights. Details of this issue are set out in section 6.3.4.4 of the Company's replacement prospectus dated 13 June 2025.

Dave was also granted 1,034,482 share rights under a one-off equity grant made in connection with the Company's ASX listing, calculated by dividing the face value of \$3,000,000 by the offer price (\$2.90) (IPO Share Rights). Dave did not pay any consideration for the IPO Share Rights, which were not subject of performance conditions and vested 12 months following the date of listing subject to his continued employment. Details of this issue are set out in section 6.3.4.6 of the Company's replacement prospectus dated 13 June 2025.

Recommendation – The Directors (with Dave abstaining) unanimously recommend that shareholders vote **in favour** of the grant of FY27 LTI Rights to the CEO. The Chair of the meeting intends to vote all available proxies **in favour** of the resolution.

Appointment of Proxies

A shareholder entitled to attend and vote at the AGM can appoint a proxy to attend and vote at the Meeting on their behalf. A proxy does not have to be a shareholder of the Company. The person appointed as a shareholder's proxy may be an individual or a body corporate. The appointment may be a standing one. A body corporate may appoint an individual as its representative to exercise any powers the body corporate is entitled to exercise at general meetings of the Company.

If a corporate representative is appointed to attend the AGM on behalf of a body corporate, a formal notice of appointment or a properly executed letter or other document confirming its authority to act as the corporate representative must be submitted before the Meeting.

Appointing more than one proxy

A shareholder entitled to cast two or more votes may appoint no more than two proxies. If you appoint two proxies, you may specify the proportion or number of votes each proxy you have appointed is to exercise. If no proportion or number of votes is specified, each proxy may exercise half of your votes (disregarding fractions).

Voting by the proxy

A shareholder may direct their proxy to vote in a particular way, or to abstain from voting, on a Resolution by marking the appropriate box for that Resolution in the proxy appointment. If the shareholder directs the proxy (including the Chair) how to vote on a Resolution, the proxy must vote as directed. This does not affect the way a proxy (including the Chair) can cast any votes they hold in their own capacity as a shareholder.

Any undirected proxies on a given Resolution may be voted by the appointed proxy (including the Chair) as they choose, subject to the voting exclusions for Item 5 and Item 6 described above.

Appointing a proxy

To appoint a proxy, shareholders will need to submit a personalised proxy in any of the three following ways:

- **Online** by visiting www.investorvote.com.au using the secure access information detailed on your voting form or scanning the QR code which appears on your voting form and following the instructions provided. When scanned, the QR code will take you directly to the mobile voting site. You will need to enter your postcode to submit your proxy appointment online. Intermediary online subscribers (custodians) may lodge proxy instructions at www.intermediaryonline.com;
- **By mail** (using the return-addressed envelope, reply-paid for mailing in Australia) to Computershare Investor Services Pty Limited, GPO Box 242, Melbourne VIC 3001; and
- **By facsimile** to Computershare Investor Services Pty Limited on facsimile number 1800 783 447 (or +61 03 9473 2555 if outside Australia).

To be effective for the scheduled AGM, your proxy appointment must be submitted electronically, or your voting form must be received, no later than 10.00am (AEST) / 11.00am (AEDT) on Wednesday, 18 November 2026 (being 48 hours before the commencement of the Meeting). Any voting form received after this deadline, including at the Meeting, will be invalid.

If the voting form is signed by an attorney, the power of attorney or a certified copy of it must be sent with the voting form, unless the power of attorney has already been provided to the Company's share registry. A proxy cannot be appointed under power of attorney or similar authority online.

Chair as proxy

If you appoint the Chair as your proxy (or the Chair becomes your proxy by default) and you do not direct your proxy how to vote on any proposed resolution set out in this Notice, then (by submitting your valid proxy appointment) you will be expressly authorising the Chair to vote as the Chair decides on the relevant resolution. The Company's voting form will contain text expressly authorising the Chair to exercise undirected proxies in favour of Items 5 and 6 where they are acting as a proxy for a person entitled to vote on these Items, even though they are excluded from voting on these Items in a personal capacity as a member of the KMP. The Chair intends to vote undirected proxies in favour of each of the proposed resolutions at the Meeting (where permissible).

If you do not want the Chair to vote as your proxy in favour of any of the proposed resolutions, you need to direct your proxy to vote against, or to abstain from voting on, the relevant resolution by marking the appropriate box in the proxy appointment.

Other KMP as proxy

If you appoint a Director (other than the Chair) or another member of the KMP (or a CRP of any such member) as your proxy, you should direct them how to vote on Item 5 and Item 6 by marking the appropriate box in the proxy appointment. If you do not do so, your nominated proxy will not be able to vote on your behalf on Item 5 and Item 6.

Conduct of the Meeting

The Company is dedicated to conducting its shareholder meetings in a way that enables shareholders, proxyholders and representatives to fully engage in the AGM. Attendees will be given the opportunity to ask questions and make comments on matters relevant to the Items of Business or concerning the Company more broadly, all within a structured and respectful environment.

The Chair will use their authority to ensure proceedings are managed efficiently and in the best interests of all shareholders attending. Should any technical difficulties arise during the AGM, the Company will consider the effect on shareholders who are participating and voting online. The Chair may provide directions to address any such issues and may decide whether it is appropriate for the AGM to continue. For this reason, shareholders are encouraged to vote directly or lodge a proxy by 10.00am (AEST) / 11.00am (AEDT) on Wednesday, 18 November 2026 even if they plan to attend online.

Questions and comments by shareholders

Shareholders attending the AGM in person and online will have a fair opportunity to raise questions or make comments regarding the Items of Business as well as the management of the Company and its subsidiaries. Representatives from KPMG, the Company's auditor, will also be present, and shareholders will be able to ask them questions.

Shareholders are welcome to submit questions to the Company in advance of the Meeting via InvestorVote (www.investorvote.com.au), no later than 10.00am (AEST) / 11.00am (AEDT) on Wednesday, 18 November 2026. Please note that questions submitted online or prior to the AGM may be subject to moderation or may be combined where there are several on the same subject. While every effort will be made to address as many questions as possible, it may not be possible to respond to all questions during the AGM.

Schedule 1 – Summary of material terms of the Employee Incentive Scheme

The key features of the Virgin Australia Incentive Scheme as set out in the plan rules (Plan Rules) are outlined in the table below.

Term	Description
Eligibility	Offers may be made at the Board's discretion to directors, employees, and individuals who provides services to Virgin Australia and any of its subsidiaries (each an Eligible Employee).
Type of Awards	Virgin Australia may grant Share Rights, Performance Rights, Options and/or Shares (together, Awards) as incentives, subject to the terms and conditions of each individual offer to an Eligible Employee. • Share Rights: a holder of a Share Right will be entitled to receive a Share upon the satisfaction of any applicable time-based vesting conditions. They may be required to pay an exercise price to receive their Shares. • Performance Rights: a holder of a Performance Right will be entitled to receive a Share upon the satisfaction of any applicable performance and time-based vesting conditions. They may also be required to pay an exercise price to receive their Shares. • Options: a holder of an Option will be entitled to receive a Share upon satisfaction of any applicable performance and/or vesting conditions and payment of an exercise price (if any). • Shares: Shares offered may be subject to dealing restrictions, vesting conditions or other restrictions or conditions. Where Options with cash exercise prices are granted, the Plan Rules provide flexibility to offer cashless exercise.
Employee Share Trust	The Company may appoint a trustee to hold securities on behalf of Eligible Employees.
Vesting and performance conditions	Vesting of Awards granted or allocated to each Eligible Employee is subject to vesting and/or performance conditions specified in the offer document for each Award as determined by the Board. Subject to the Plan Rules and the terms of an offer document, an offer of Awards may lapse or be forfeited if such performance or vesting conditions are not satisfied. The Board may modify or waive vesting conditions only in the circumstances permitted under the Plan Rules and subject to applicable law, the ASX Listing Rules and any required Shareholder Approval. A Participant may be required to pay any exercise price on the exercise of an Option, Share Right or a Performance Right.
Offers	Subject to any requirements under the ASX Listing Rules or any other applicable laws, the Board may make offers of Awards at its absolute discretion under the Plan Rules. The Board has the discretion to determine the terms and conditions of each offer of Awards it makes to Eligible Employees.
Issue price and exercise price	The Board will determine the issue price (if any) and exercise price (if any) for each grant of Share Rights, Performance Rights, Options or Shares. To the extent permitted by law, the Board may permit an Eligible Employee to exercise their Options by way of a cashless exercise where an exercise price applies.

Dividends and voting rights	Awards other than Shares do not carry voting rights or rights to receive dividends however dividend equivalent payments may be made in connection with Awards other than Shares.
Dividend Equivalent Payment	Though Share Rights and Performance Rights do not entitle the holder to dividend rights, where permitted in an offer document, following the vesting of Share Rights and Performance Rights, Eligible Employees may be entitled to receive (in the Board's absolute discretion) either: • a cash payment equal to the value of dividends the Eligible Employee would have received had it held Shares instead of Share Rights or Performance Rights at the time a dividend is declared (if any); or • an equivalent number of Shares, calculated by dividing the value of dividends that the Eligible Employee would have received had it held Shares instead of Share Rights or Performance Rights at the time a dividend is declared (if any). Dividend equivalent payments are payable with respect to vested Share Rights and Performance Rights. Top-up Shares may be delivered to an Eligible Employee either through the issue of new Shares to them or by the transfer to them of existing Shares acquired on the ASX. The intention is that by sharing dividend rights, Virgin Australia will further motivate these Eligible Employees to deliver outcomes that will enhance returns for all shareholders.
Cessation of employment	Subject always to the Board's discretion, the treatment of Awards on cessation of the Eligible Employee's employment will depend on the circumstance of cessation. A "Bad Leaver" is a Leaver who resigns or is terminated for cause. A "Good Leaver" is any other Leaver who is not a Bad Leaver, unless the Board determines otherwise. Bona fide retirement is dealt with separately under the Plan Rules. Subject always to the Board's discretion: • Bad Leavers - all unvested Awards and vested but unexercised Awards will generally immediately lapse and be forfeited. Shares already allocated on exercise of an Award are retained. • Good Leavers - a Good Leaver will generally retain a pro-rata portion of their unvested Awards, based on the proportion of the performance period during which they were employed by the Group and the performance hurdles achieved during that period. Vested Awards and Shares already allocated on exercise are retained. • Retirement - where a Participant ceases employment due to bona fide retirement, the Participant will generally retain all unvested Awards subject to their original terms, together with Shares already allocated on exercise of vested Awards. The Board retains discretion, subject to the Listing Rules and Corporations Act, to determine a different treatment where the relevant circumstances warrant it.
Clawback and avoiding inappropriate benefits	Consistent with the express purpose of the Plan Rules, the Board has broad malus and clawback powers if there is a material financial misstatement or some other event which as a result means that certain vesting conditions were, or should not have been determined to have been, satisfied as well as in other circumstances such as fraud.
Change of control	The Board may determine that all, a specified number of, or none of an Eligible Employee's unvested Awards will vest or cease to be subject to vesting conditions where there is a change of control event (for example, a takeover offer for Shares under Chapter 6 of the Corporations Act or a scheme of arrangement between the Company and Shareholders under Part 5.1 of the Corporations Act).

Award adjustments	The Plan Rules include specific provisions dealing with reconstructions, corporate actions, rights issues, bonus issues and other capital reconstructions, for example to allow for the adjustment of the exercise price and/or the number of Shares on the occurrence of these actions. The intention of these provisions is to ensure that there is no material advantage or disadvantage to the Eligible Employee in respect of their Award as a result of such actions. These provisions are subject to the application of the ASX Listing Rules.
Restrictions on dealings	Prior to vesting, the Eligible Employee must not sell, transfer, encumber, hedge or otherwise deal with any Awards. After vesting, unless escrowed, Eligible Employees will be free to deal with their Shares, subject to the Company's Securities Trading Policy and applicable laws.
Lapsing and forfeiture	Performance Rights, Share Rights and Options will lapse, and Shares may become subject to forfeiture, compulsory transfer or clawback, on the occurrence of a date or circumstance specified in the Plan Rules and the offer of the applicable Award, for example, upon failure to satisfy a vesting condition or if the Eligible Employee has acted fraudulently or dishonestly.
Amendments	Subject to and in accordance with the ASX Listing Rules, the Board may amend the Plan Rules provided that the rights or entitlements in respect of any Awards granted before the date of the amendment must not be reduced or adversely affected unless prior written approval from the affected Eligible Employee is obtained.
