

Group online check-in

Making group travel easier

At Virgin Australia, simplify your check-in experience with group online check-in for seamless travel with your group.

Virgin Australia will provide the Group Leader with the option to check-in the entire travelling group online and print boarding passes prior to arrival at the airport, allowing your group to breeze through airport formalities. Members of your group travelling without checked-in baggage can simply proceed to the boarding gate.

Members travelling with checked-in baggage can proceed to the baggage drop off counters with their pre-issued boarding pass.

This service is available via a dedicated check-in code provided by your Virgin Australia Group Sales representative, along with instructions on how to complete group check-in online.
