

Virgin Australia's Passenger Pet Travel Policy Pet in Hold

Virgin Australia takes the safety of animals very seriously and takes every measure possible to ensure they have a comfortable and enjoyable flight. With the introduction of ancillaries in the GDS we are now able to offer Travel Agents the ability to book and manage passenger pet travel when using Amadeus, Sabre, Travelport (Galileo, Apollo and Worldspan).

To ensure the highest level of care, Virgin Australia accepts only a limited number of bookings for passengers' pets on Virgin Australia domestic flights.

- To travel with us, your pet must:
 - Be a dog or a cat
 - Appear to be in good health
 - Not be unduly aggressive
 - Be over 8 weeks old (this is to avoid possible dehydration while travelling)
 - Be transported in a crate/container which complies with the Virgin Australia Domestic Pet Travel Guidelines for pet containers and is the correct size for the guest's pet
 - Not exceed 65kgs (including the crate)
 - If travelling into Tasmania, the guest's dog must be treated for the Hydatids Tapeworm prior to arrival
 - Be travelling with the guest on the same flight.

- A Veterinary Certificate confirming that the guest's pet is fit for air travel (dated within 2 weeks of travel date) is required if the pet is:
 - Pregnant or has given birth within 48 hours of the planned departure time
 - Over 12 years of age
 - Between 8 and 12 weeks old
 - Sick, injured or recovering from surgery
 - Brachycephalic or snub-nosed dog and cat breeds, including crossbreeds

- Generally, only one pet may travel per cage, however up to three pets can travel per cage if they meet all of the following criteria:
 - All from the same litter
 - Under 6 months old
 - Under 14kgs each
